To whom it may concern,

Jeffrey Dean Company is one of the most down to earth ministries I have ever worked with. I have been in youth ministry over 13 years and have worked with many people. None have been as real and genuine as Jeffrey. His message is relevant and reaches the kids at a youthful level. He connects well with his audience and communicates his heart with a style and flair that teens can appreciate . I am looking forward to working with Jeffrey again . I recommend The Jeffrey Dean Company to anyone who cares to reach a generation and who cares for the future of our young peoples world.

Sincerely,
