**A Title One School**

The mission of Hart County Middle School is to become a world class school that meets the needs of our student population by striving to attain high academic achievement and personal growth. This will be accomplished through continuous collaboration between school, community, parents and students. We will foster a school climate that is safe and supportive of individual students, enabling them to become active, successful members of the community.

March 3, 2010

To Whom It May Concern:

We would like to acknowledge the work of Hart Life in bringing in Jeff Dean to speak to our students and community. Jeff provided a tremendous training to our parents on cyberlife and the role and task of parents. We had a tremendous turnout for this program and everyone was very complimentary of the program. Jeff also provided assemblies for both our high school and middle school students. I was present at the middle school assembly and all students and teachers were engaged and connected to the message presented by Jeff. His efforts to promote good decision making will hopefully inspire some of our young people and make a difference in their life.

All these presentations were well organized and presented, well attended, engaging, and received highest praise from students and parents. Hart Life continues to provide services that are relevant to our community. Thanks very much for your support!

Sincerely,

Jim Burch  
 Assistant Principal
