

*I would highly recommend Jeffrey Dean as a speaker to both adults and students! Jeffrey is an engaging, humorous and solid communicator. He is able to connect with both students and adults and speak their language. He is gifted in getting the attention of students by speaking directly to the hurts and struggles in their life. They leave feeling challenged, encouraged and motivated. It is obvious that Jeffrey has spent many hours with teenagers by being able to relate to them and speak to them so well.*

*Jeffrey spoke to a variety of groups at our No Apologies event. He did a parent training, Junior High and High School assemblies and a faith based purity driven event. The number of people in attendance varied at each event from a group of 100 students to a group of almost 2,000. Jeffrey was able to connect with every audience and every age. Jeffrey obviously has a heart for ministry and changing lives. It is evident this is more than a job for him; it is a calling.*

*Jeffrey and his assistant, Rich Blackburn, were great to work with. They handled many of the logistics and most importantly they listened to what our group needed to fulfill the mission of our event and then delivered. I give them my highest recommendation!*
