Wow!

Jeffery Dean knows how to connect with the human spirit as he touches on important topics with humor and understanding, minus judgment. There is an obvious gift present and we were truly blessed to hear his message. Students laughed, cried and interacted. Following both engagements various teens stayed after to speak with Jeffery and felt compelled to tell their story. We all have a story and Jeffery made it ok. His message was about respect for self and the awareness of choices. Life is such a blessing and Jeffery embrace the sad, the scary, the funny and the beauty of life that everyone should be permitted to experience. Our personal choices make “living” our lives possible.

Thank you for the time you took and the heart you gave us.

Educationally Yours,

Sonja DuBois
Dean of Students PreK-12
